

Information on membership of the Professional Body of Evaluators

Evaluators are members of the Expert Advisory Body of Evaluators. The Expert Advisory Body of Evaluators is established by the Council for Research, Development, and Innovation as its expert and advisory body for the implementation of the evaluation according to the Methodology for the Evaluation of Research Organizations and Evaluation of Programs of Special Purpose Support for Research, Development, and Innovation approved by Czech Government Resolution No. 107 of 8 February 2017.

Evaluators are experts who assess the outputs submitted for remote review evaluation. **The evaluation takes place in a web application constructed for this purpose.** Membership of the Professional Body of Evaluators is not limited by term of office; membership may be resigned at any time. **The evaluation of selected results will start in the second half of February 2024. Based on the previous experience, we expect the process to be completed by the end of May 2024.** During this evaluation period, you can be contacted by a member of an Expert Panel with a request to evaluate specific research results in your area of expertise. For each outcome, the evaluator decides whether she/he is able to carry out the evaluation given his time and expertise.

Evaluators are members of the Expert Advisory Body of Evaluators. Evaluators are remunerated for their services (**approximately 1750 CZK per evaluation**), but they are not in any employment relationship (or contract of services or work performance agreement) with the Office of the Government. Remuneration is paid in the last quarter of the year.

Thank you for your help and cooperation in the process of building a meaningful peer review-based national R&D&I evaluation in the Czech Republic.
